

## **Notice of blockade of Israeli ships and Israeli Goods**

**By Swedish Port Workers Union**

**June 2, 2010**

Swedish Port Workers Union has today given notice of the blockade of all Israeli ships and cargo to and from Israel which is managed by the union members. The blockade will be effective at. 00:00 Tuesday, June 15 and lasts until at. 24:00 Thursday, June 24.

The reason for the blockade is the unprecedented criminal attack on the peaceful ship convoy In Gaza. Several peace activists were killed by Israeli commandos and other participants were detained without any reason.

Swedish Port Workers Union, which supports the Ship to Gaza, like the action to protest against the state of Israel of international law perpetrated against a convoy of peace activists and material supplies to the people as well because of a legal blockade suffering population of Gaza.

Swedish Port Workers Union requires that the assault are brought to justice, that international law is respected by the State of Israel and that the blockade of Gaza immediately lifted.

Swedish Port Workers' Union would urge other unions and other organizations to take similar initiatives and calls for a general blockade of Israeli goods until the Palestinian people's rights have been satisfied in general and in particular the blockade of Gaza lifted.
